JOHNNY WONDER

Q. "HOW DOES A SQUID USE ITS INK TO ESCAPE ENEMIES?"

SETH LAMADE, OF VIRGINIA BEACH, VA., WINS A PRIZE FOR THIS QUESTION.

Like the octopus, the squid is famous for its ability to squirt an inky liquid into the water to escape enemies. The "ink" is a thick, dark brown liquid produced by a gland in the squid's body and stored in a special reservoir known as an "ink sac." When an enemy approaches, the squid squirts out a dark, squid-

size blob of ink. The squid instantly changes its color and retreats behind the inky fake. The would-be attacker is usually deceived by this inky escape trick, and is also left searching for an animal whose coloring is quite different from the squid's.

You can win a World Almanac if your question is selected. Send your name and age to JOHNNY WONDER, c/o this newspaper, P.O. Box 1335, (DA) Santa Cruz, CA 95061.
